

UCHIDA

Desktop card cutter series

VersaTrim
Multi Card Cutter

BC-10
Business Card Cutter

Simple A4 card cutters with extreme quality.

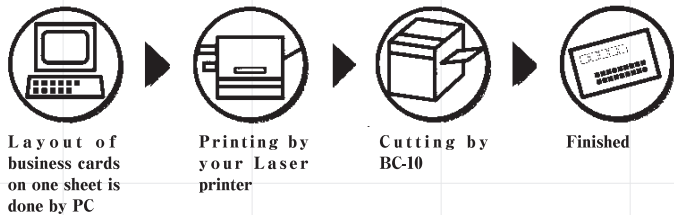

BC-10

Now you can make your own business cards in your office so easily, quickly and accurately!

The Uchida BC-10 fill your needs to make professionally cut business cards whether you are a small - mid sized printer or large corporation producing 1000s of cards a day.

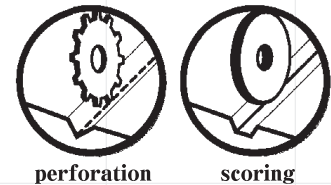

The high-quality cutters and cutting mark detecting function guarantee perfect finishing

Steps to make business card

Optional perforation and scoring device

Optical perforation device or scoring device can be easily installed in place of the cutter device for business card.

Versa Trim

Uchida desktop cutter with more flexibility by rapid tool changing.

The VersaTrim is able to make not only business cards, but also post cards, insertion cards with just standard slitters. Of course the optional perforation unit, scoring unit, photo card unit and more are available. You can change the slitter units rapidly without changing any tools.

You are able to change the slitter unit by just one knob screw. **No tool are required.**
