

## Plockmatic SD-500 and SD-350 for Konica Minolta

# Plockmatic SD-500 and SD-350

**High Volume.**  
**Superior Quality.**  
**Continuous Production.**

## Booklet production made simple

The Plockmatic SD-500/350 is a modular inline booklet making solution for centralized reproduction departments and commercial print providers - large and small. Customers can choose from a range of cost-effective options to support their application requirements. The system is packed with a host of unique technologies that deliver finished books with quality to match Konica Minolta printing systems.

Customers are demanding more media versatility from digital print. The Plockmatic SD-500/350 is designed from the ground up to work with today's coated, uncoated and textured paper stocks.

Plockmatic works closely with Konica Minolta and workflow partners to ensure the closest possible integration of the booklet making system. This supports ease of use and allows operators of different skill levels to get the most out of the entire printing system.

## About us

Plockmatic Group develops, manufactures and markets an extensive range of document finishing systems sold under the Plockmatic and Morgana brand names. These products work inline or offline together with the world's best digital printing systems.

We make booklets. We also mail, fold, crease, perforate and bind documents with extraordinary precision. Quite simply, we turn stacks of printed paper into the beautifully finished documents you use every day

# Plockmatic SD-500 and SD-350

## BookFold module (optional)

The BookFold module adds the finishing touch with a square folded edge and printable spine. Gives booklets the professional look of a perfect bound book.

## Cover Feeder (optional)

The Cover Feeder provides another pick point for pre-printed covers. Allows easy blending of color covers with monochrome content.

## RCT Rotate Crease Trim module (optional)

The Plockmatic RCT Rotate Crease Trim module provides professional looking, full bleed trimmed and creased booklets together with the SD-500 and SD-350.

## Face Trimmer module (optional)

The Face Trimmer module trims the side opposite to the spine eliminating the "shingle" effect that occurs with thicker booklets.

## SD-500/SD-350 Production Booklet Makers

The SD-500 can staple and fold up to 50 sheets of 80 gsm, which creates booklets of up to 200 pages. The SD-350 is capable of 35 sheets creating 140 page booklets.

## Fold mechanism

The Patented fold mechanism gives a sharp fold for every application, resulting in professional looking documents every time.

## Hand feed capability

This standard feature allows output produced on other printing systems to be turned into high quality booklets.

## Maintenance free staple heads

High-wearing parts are built into the easy to replace staple cartridge itself. You'll spend less time worrying about maintenance and more time making great looking booklets.

# Technical Specifications

SD-500 / SD-350	
Paper sizes	From 8.1" x 10.8" to 12.6" x 18"
Finished book sizes before trimming	From 8.1" x 5.4" to 12.6" x 9"
Stock range	16 lb Bond to 132 lb Cover depending on media type
Book thickness (folded with staples)	SD-500: 2-50 sheets, SD-350: 2-35 sheets (18 lb Bond)
Book thickness (folded without staples)	Up to 2 sheets
Face trimmer range	0.04" to 1"
Bleed Trimmer	Integrated in optional RCT module, slit type
Bleed trimmer range	0.2" to 1.2" on each side
Rotation	Integrated in optional RCT module for smaller sheet sizes (8.5" x 11" and A4 / SRA4)
