

Plockmatic Pro50/Pro35

Booklet Makers

Introducing two booklet makers with specifications unmatched in the mid-range.

Plockmatic International

Plockmatic International develops, manufactures and markets an extensive range of document finishing systems sold under the Plockmatic and Morgana brand names. These products work inline or offline in concert with the world's best digital printing systems. We make booklets. And we mail, fold, crease, perforate and bind documents with extraordinary precision. Quite simply, we turn stacks of printed paper into the beautifully finished documents you use every day.

The Plockmatic Pro50/Pro35

The Plockmatic Pro50/Pro35 is a modular in-line booklet making solution for centralized reproduction departments and commercial print providers - large and small. Customers can choose from a range of cost-effective options to support their application requirements. The system is packed with a host of unique technologies that deliver finished books with quality to match today's printing systems.

Customers are demanding more media versatility from digital print. The Plockmatic Pro50/Pro35 is designed from the ground up to work with today's coated, uncoated and textured paper stocks.

Plockmatic works closely with print engine manufacturers and workflow partners to ensure the closest possible integration of the booklet making system. This supports ease of use and allows operators of different skill levels to get the most out of the entire printing system.

Key Features

Booklet Maker - The standard configuration includes the Booklet Maker equipped with 35 or 50 sheet capacity. It includes an output tray to provide set compiling, stapling, folding and stacking capabilities.

Ready	Paper Size	Jobs
Staple	A4 (297mm x 210mm)	
Staple On	Cut	
Staple position	Fold position	
Trim On	Book fold unit	Tools

Face Trimmer - Removes the shingled effect on the face of the folded document and provides a clean document edge.

Square Fold - Adds square folding to booklets for a professional look and printable spine. It's like a perfect-bound book for a fraction of the cost.

Rotate Crease and Bleed Trimmer - Adds rotation, creasing and bleed trimming to folded booklets for a professional look without the need for a manual trimming step.

Hand Feeding - Output from any other print device can be manually fed into the Booklet Maker to create booklets.

The Latest Generation in Digital Booklet Making

BM50/BM35 Production Booklet Makers

The BM50 can staple and fold up to 50 sheets, which creates booklets of up to 200 pages. The BM35 is capable of 35 sheets, creating 140 page booklets.

Hand Feed Capability

This standard feature allows output produced on other printing systems to be turned into high quality booklets.

Cover Feeder (Optional)

The cover feeder provides another pick point for pre-printed covers. Allows easy blending of color covers with monochrome content.

Square Fold Module (Optional)

The Square Fold module adds the “finishing touch” with a square folded edge and printable spine. Gives booklets the professional look of a perfect bound book.

RCT - Rotate Crease Trim Module (Optional)

The Plockmatic RCT Rotate Crease Trim unit provides professional looking, full bleed trimmed and creased booklets on the Pro50/35.

Face Trimmer Module (Optional)

The Face Trimmer module trims the side opposite to the spine eliminating the “shingle” effect that occurs with thicker booklets.

Maintenance Free Staple Heads

High-wearing parts are built into the staple cartridge itself. You’ll spend less time worrying about maintenance and more time making great looking books.

Fold Mechanism

A newly designed fold mechanism gives a sharp fold for every application, resulting in professional looking documents every time.
