

Plockmatic Pro450e and Pro435e
for Xerox

Plockmatic Pro450e and Pro435e

Compact booklet making system, combines **robust** and **reliable** performance with a **wide** range of **applications**, including **landscape format**

Bookletmaking made easy

The Pro450e/435e is a versatile booklet maker designed to work with low to mid volume digital production printers. It delivers booklets of exceptional quality and is able to feed the new long printed sheets to produce a variety of applications. This includes Letter size landscape booklets, which is becoming an increasingly important customer expectation.

The new system architecture enables customers to produce high quality booklets from A6 to Letter landscape, and has all the key processes needed to produce corner and edge staple, folding, spine forming, and full bleed trimming. All combined in one single, easy to use system. This new bookletmaker offers the ability to produce long sheets applications while maintaining the small and compact size of the system it replaces.

Plockmatic Pro450e and Pro435e

Add our **signature squarefolded** finish to **Letter landscape format** documents

Key Features

- Square folded booklets from A6 to Letter Landscape and beyond
- Corner stapled documents in portrait Letter size
- Edge stapled documents in portrait and landscape Letter size
- Up to 140 or 200-page booklet capacity
- Supports up to 26" long sheets without RCT 3.0 or 24.4" with RCT 3.0
- Average monthly volume of 30k booklets
- Max monthly volume of 40k booklets

Deliver high quality applications

The base unit folds and staples booklets and corner or edge stapled sets up to 140 pages (35 sheets). The booklet maker can be upgraded with the optional 50 Sheet Performance Kit to allow for up to 200 pages (50 sheets) and improved productivity. The Pro450e/435e uses the latest patented Plockmatic technologies to deliver top quality output in a wide range of print applications.

User Interface

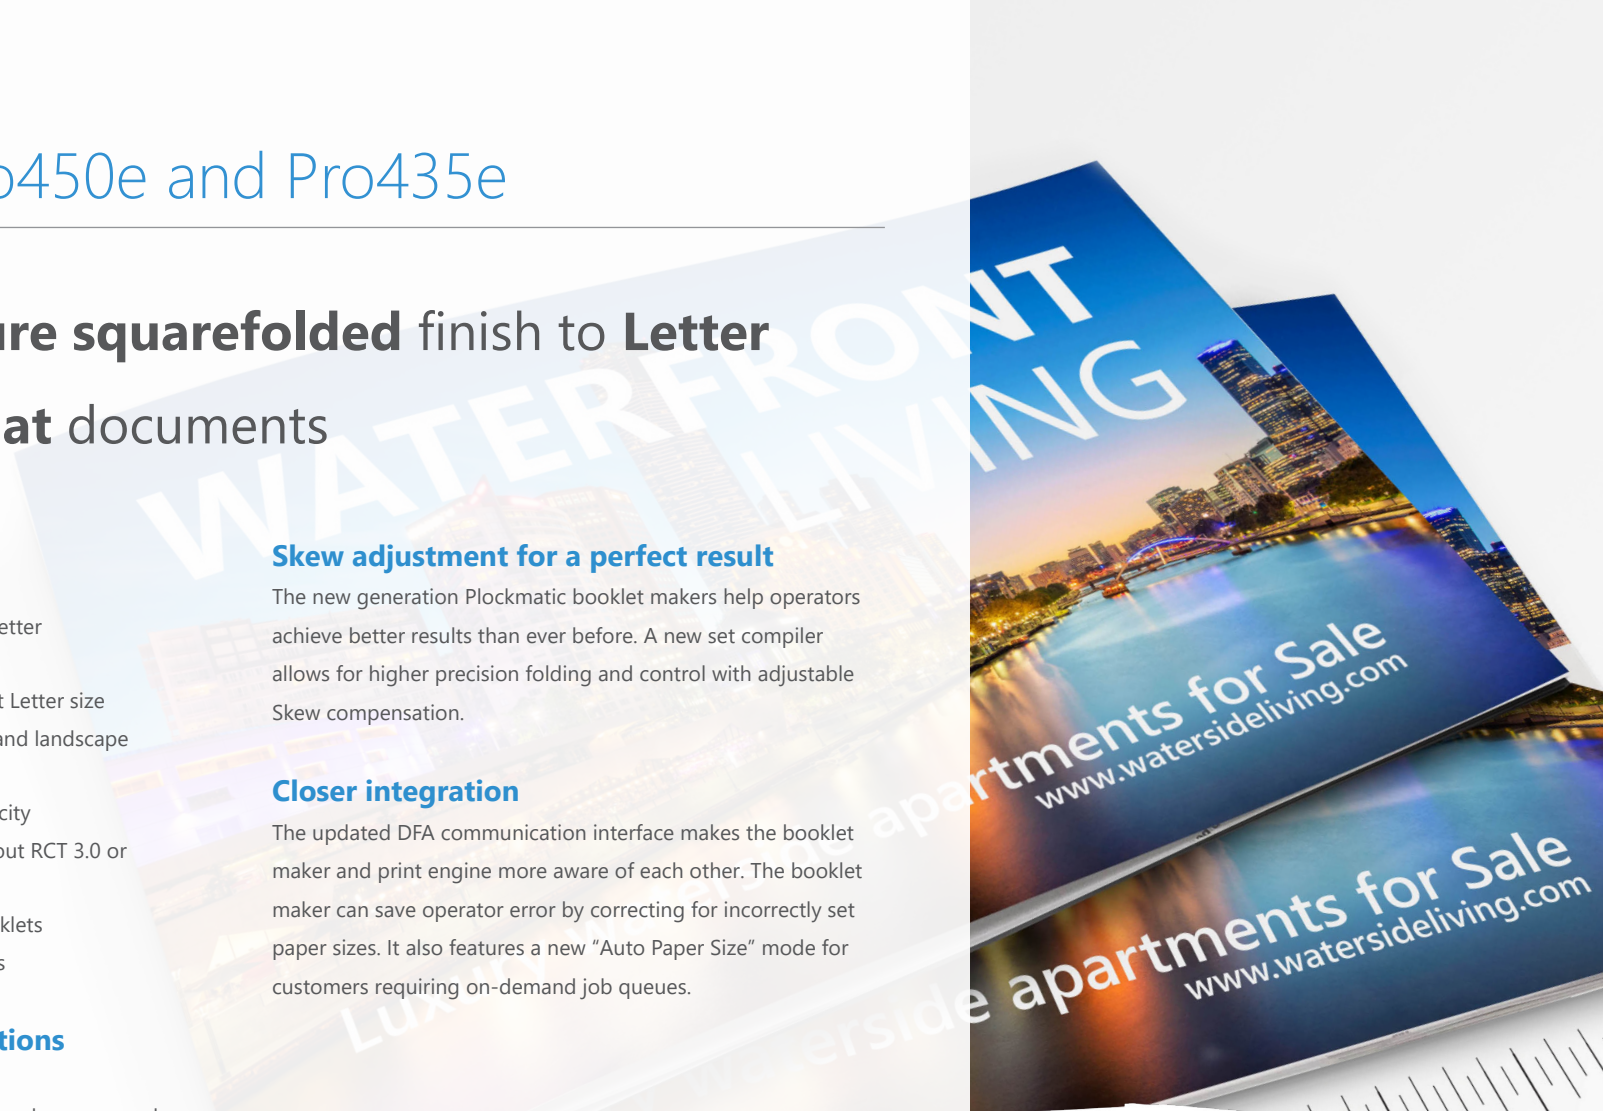

Simple to use 7" touchscreen graphical interface with easy job setup and adjustment of applications.

Skew adjustment for a perfect result

The new generation Plockmatic booklet makers help operators achieve better results than ever before. A new set compiler allows for higher precision folding and control with adjustable Skew compensation.

Closer integration

The updated DFA communication interface makes the booklet maker and print engine more aware of each other. The booklet maker can save operator error by correcting for incorrectly set paper sizes. It also features a new "Auto Paper Size" mode for customers requiring on-demand job queues.

Plockmatic Pro450e and Pro435e

The **Pro450e and Pro435e** is **compatible with** the following Xerox print engines:

The Pro450e/435e booklet maker is a powerful and versatile finishing solution for low-to-mid size centralized reprographic departments (CRD) and commercial print environments. The new architecture enables new powerful features, the Pro450e/435e now brings heavy production-like features to the continuously growing low to mid-production segment.

An innovative and compact booklet making system, the Plockmatic Pro450e/435e booklet makers combine optimum book quality with robust and reliable performance. All the key processes needed to produce high quality booklets: stapling, folding, spine forming, and full bleed trimming are combined in a single, easy to manage system.

Compatible with:

Versant® 280 Press

Versant® 4100 Press

Iridesse® Production Presses

PrimeLink® C9065/C9070
Color Printer

PrimeLink® B9100 Series
Copier/Printer

Nuvera® 120/144/157 Presses

Plockmatic Pro450e and Pro435e

RCT Rotate Crease Trim module (optional)

The RCT module will crease the cover of the booklet and trim the edges of each sheet enabling full bleed applications to be produced right from the printer. The module will turn smaller sheet sizes allowing them to be printed in "portrait" mode for higher productivity.

Pro450e/435e Production Booklet Makers

The Plockmatic Pro450e and Pro435e can Staple and Fold Booklets up to 50 or 35 sheets. From A6 booklets all the way to Letter size Landscape and more. It can also corner and edge staple documents for an even wider range of applications.

Finishing Module (optional) FM400e

The Finishing module combines both Squarefolding and face trimming in a single, compact module. The moving face trimmer knife has increased the maximum trim range to create booklets down to 99mm wide – in a single cut. The result is a smaller module with higher capabilities and processing speed.

Staple and Fold mechanism

A completely new staple and fold mechanism gives a sharp fold for every application. With the new Skew Adjustment, operators can compensate for poorly cut paper directly in the User Interface, resulting in professional looking documents all the time.

Maintenance free staple heads

High-wearing parts are built into the easy to replace staple cartridge itself. You'll spend less time worrying about maintenance and more time making great looking booklets.

Hand feed capability

This standard feature allows output produced on other printing systems to be turned into high quality booklets.

Plockmatic Pro450e and Pro435e

Compact booklet making system, includes **corner** and **edge stapling** function as **standard**.

Stapling

A heavy duty staple mechanism designed for consistency and durability is maintenance free thanks to a patented solution that eliminates periodic service intervals. The Pro450e/435e has a patented "set positioning mechanism" that allows the operator to adjust the staple position from the user interface in the direction of travel.

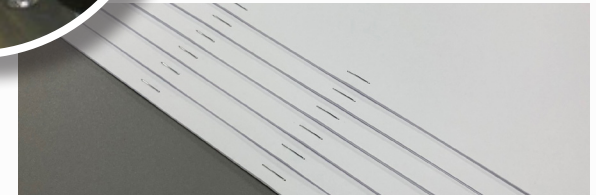

Adjustable Skew compensation helps users compensate for poorly cut paper or shrinkage during the printer fusing process directly in the User Interface.

Edge stapling

This simple and quick binding option is perfect for documents that are meant for short-term use. Edge stapling is fast and easy, an ideal option for offices, schools, copy shops and printhouses with mainly small-volume jobs.

Corner stapling

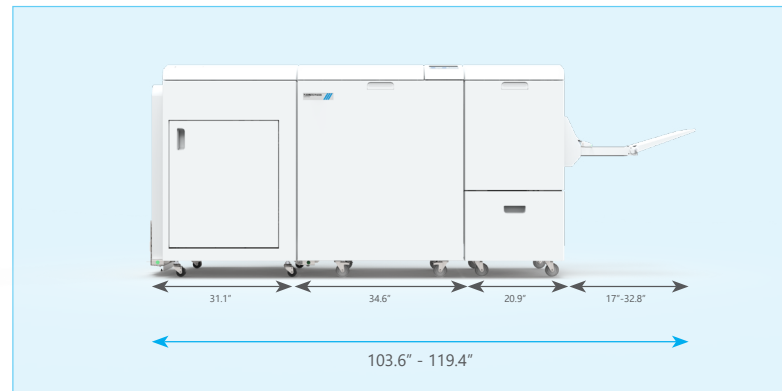

Corner stapled binding is one of the most economical binding methods for your documents, easy to handle and store. Perfect for leaflets, official handouts, newsletters or any other documents with comparatively less number of pages that you want to be distributed, used with utmost flexibility.

Technical Specifications

Pro450e and Pro435e	
Paper sizes	Min 5.7" x 8.3", Max 12.6" x 26" (Max 13" x 24.4" with optional RCT)
Finished book sizes before trimming	Min 4.14" x 5.7", Max 12.6" x 13" (Max 12.6" x 12.2" with optional RCT)
Finished book sizes after trimming	Min 3.9" x 5.7", Max 12.6"x 12.1" (Min 3.9" x 5.82", Max 12.6"x 12.1" with optional RCT)
Stock range - booklets	17lb bond - 110lb cover depending on media type, up to 130lb cover on certain media
Stock range - edge stapling	20lb bond - 32lb bond
Stock range - corner stapling	20lb bond
Book thickness (folded with staples)	Pro435e: 2-35 sheets, Pro450e: 2-50 sheets (17lb bond)
Book thickness (folded without staples)	Up to 2 sheets
Face trimmer range	0.079" to 9.09"
Bleed Trimmer	Integrated in optional RCT module, slitter type
Bleed trimmer range	0.20" – 1.18" on each side
Creasing:	Two tools: fine and coarse creasing profiles, possibility to crease Cover and/or Center sheet
Rotation (compatible standard sizes)	Integrated in optional RCT module for smaller sheet sizes (8.5" x 11" and 9" x 12")
Compatibility	Xerox® Versant® 280 Press Xerox® Versant® 4100 Press Xerox® Iridesse® Production Presses Xerox® PrimeLink® C9065/C9070 Color Printer Xerox® PrimeLink® B9110/B9125/B9136 Copier/Printer Xerox® Nuvera® 120/144/157 Presses

Plockmatic Group

About us

Plockmatic Group develops, manufactures and markets an extensive range of document finishing systems sold under the Plockmatic, Morgana and Intec brand names. These products work inline or offline together with the world's best digital printing systems.

We make booklets. We also mail, fold, crease, perforate and bind documents with extraordinary precision. Quite simply, we turn stacks of printed paper into the beautifully finished documents you use every day.

Plockmatic works closely with Xerox and workflow partners to ensure the easiest possible integration of the booklet making system. With new simplified programming, this makes it easy to use and allows operators of different skill levels to produce a wide range of booklets efficiently.
